## Extreme Weather events impact service in Central North New South Wales

Telstra is working to manage the significant impact to Telstra services that has occurred as a result of a series of extreme weather events in the Central North region of New South Wales, on or about, Friday 5 February 2010 through to Sunday 7 February 2010.

Due to the effect of damage to the Telstra telecommunications network by a series of severe thunderstorms, there has been a significant increase in the number of Telstra services being reported as faulty. As a result, there has been some disruption to service and delays to normal installation and repair activities.

Telstra apologises to any affected customers.

Information as to the nature of these severe weather events can be sourced from the Bureau of Meteorology (BOM). Very heavy rainfall and flash flooding referred to in the BOM Severe Weather Warning issued for 5 February 2010 initially at 12:41 pm Friday, 5 February 2010; all of which were widely reported in the news media after the events.

Telstra has identified that the effect of these circumstances applies to approximately 2732 services. This number may increase as Telstra assesses the full affect of the extreme weather conditions. Based on current information, the resumption date of normal service operations is expected to be 17 February 2010. This date is indicative only; Telstra customers should anticipate that some further delays may occur. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.
