

Customer Service Advice from Telstra

Extreme Weather events impact service in Perth and WA South

Telstra is working to manage the significant impact to Telstra services that has occurred as a result of a series of extreme weather events in the Perth and WA South regions of Western Australia on or about Sunday 19 July 2009 through to Tuesday 21 July 2009.

Due to the effect of damage to the Telstra telecommunications network by severe storms, there has been a significant increase in the number of Telstra services being reported as faulty. As a result, there has been some disruption to service and delays to normal installation and repair activities.

Telstra apologises to any affected customers.

Information as to the nature of these severe weather events can be sourced from the Bureau of Meteorology (BOM). Widespread damaging winds, thunderstorms and hail all referred to in the BOM Severe Weather Warning issued for 19 July 2009 initially at 9.50pm WST on Sunday 19 July 2009 all of which were widely reported in the news media after the events.

Telstra has identified that the effect of these circumstances applies to approximately 4123 services. This number may increase as Telstra assesses the full affect of the extreme weather conditions. Based on current information, the resumption date of normal service operations is expected to be 27 July 2009. This date is indicative only; Telstra customers should anticipate that some further delays may occur. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.
